Create Your Own Playback Table Link from any recording link for the session:

For these instructions I'll use the following link as an example:

Individual Recording link:

https://sas.elluminate.com/site/external/jwsdetect/playback.jnlp?psid=2011-05-16.1012.M.7E0B8CF5E40E300BBD29ECA84FEF91.vcr&sid=559

Playback Table link once it has been edited per instructions below:

https://sas.elluminate.com/mrtbl?suid=M.7E0B8CF5E40E300BBD29ECA84FEF91&sid=559

Instructions:

1. Obtain a copy of a link to an Individual session recording
   a. This is available from within the Class Connect feature by clicking on the Session Name of any session that was scheduled and already recorded.
2. Copy and paste the hyperlink into a Word document as illustrated above.
3. Edit the link on the Word document:
   a. Replace the section highlighted in yellow above with: mrtbl?suid=
   b. Delete .vcr
4. Copy and paste the Playback Table link into IE or Firefox to display the Playback Table
5. Bookmark or add to Favorites in the IE or Firefox browser for future access

   Each time you open the Playback Table in your browser it will update with your latest recorded session links.
